STAKING POOL MECHANICS

By Making a Deposit, Players will Start Earning the Same Asset Instantly from Active Reflection Mechanism and by Passively over Dividend Drip Pools.

Dividend Drip Pools will Pay Out %2 of the Total Amount in the Divident Pool to the Stakers Daily, Propotionate to Their Pool Share.

Players can ROLL (Reinvest) or CLAIM their Collected Rewards Anytime.

Players will be able to STAKE and UNSTAKE their Initial Deposits Anytime without Any Time Restriction.

STAKE, UNSTAKE and ROLL (Reinvest) of a Stored Asset will have a 10% Fee. 2% of that Fee will be Sent to Stakers with Active Reflection Mechanism Instantly and the Remaining 8% will be Transferred to Token's Divident Pool.

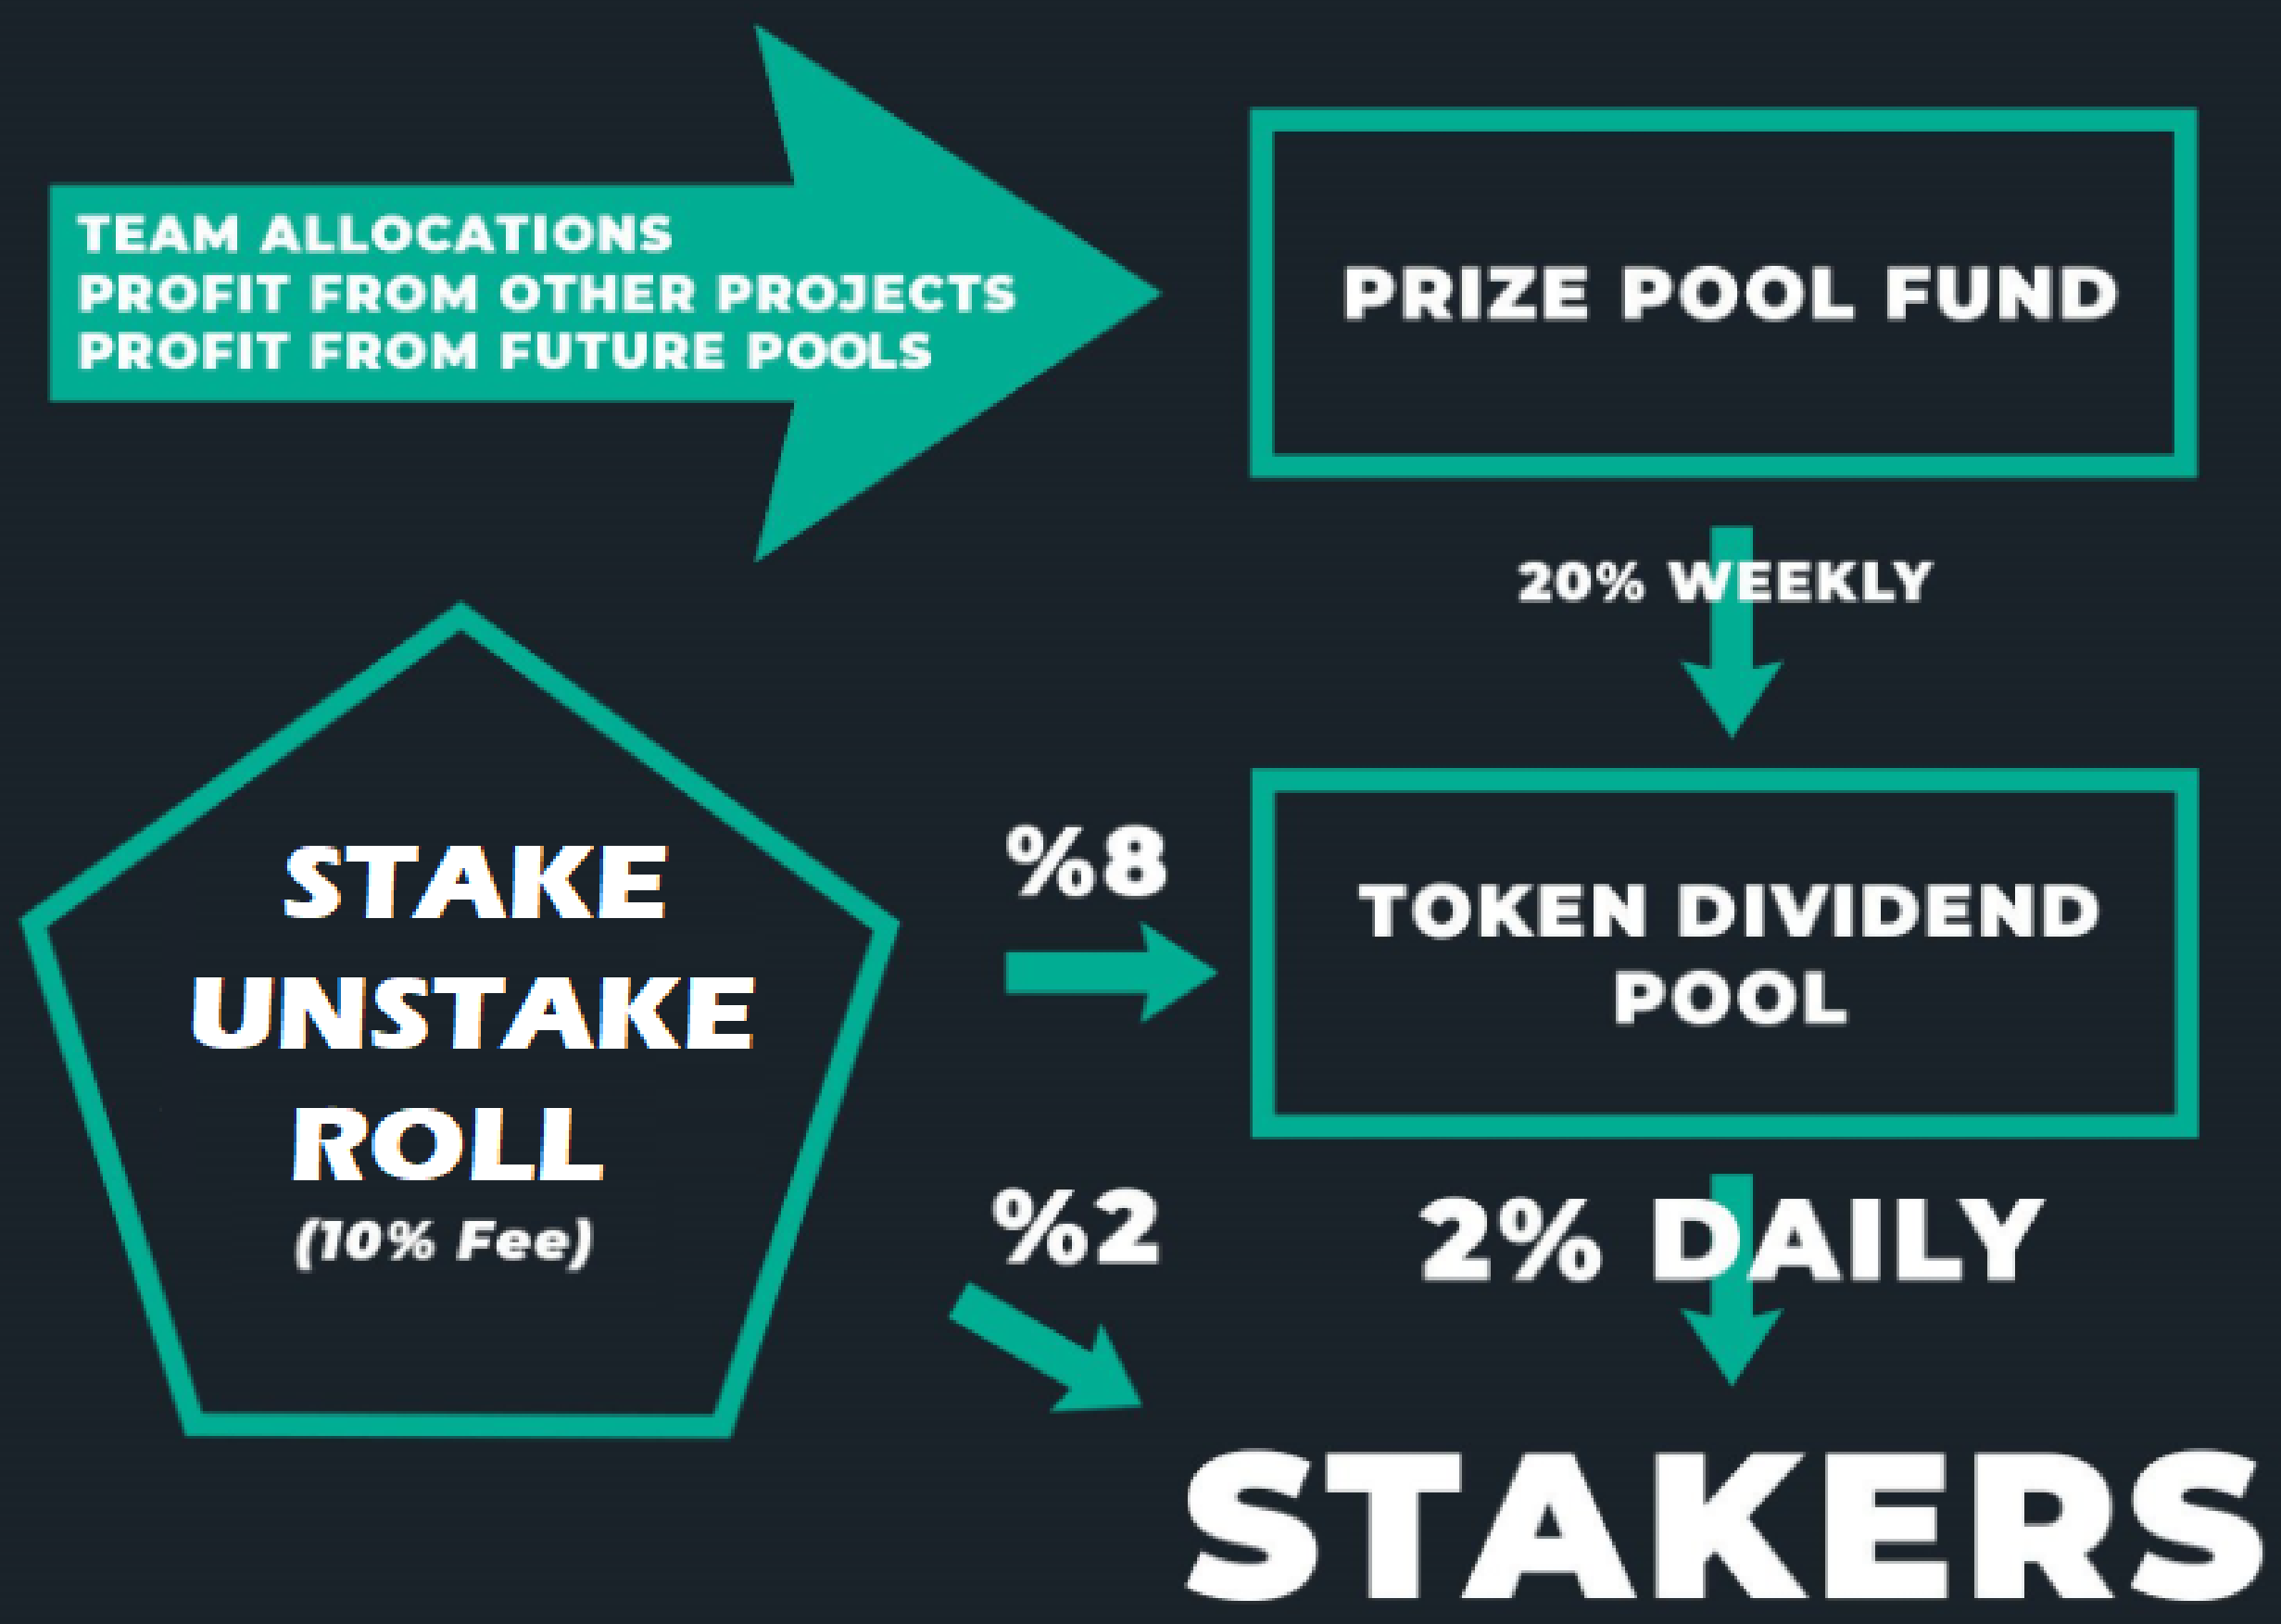

There will be No Fee for Claiming your Rewards.

Divident Pool Daily Payout:

$(\text{Your Stake \%}) * (\text{Dividend Pool Amount} * 0.02)$

STAKING POOL INFOGRAPHIC

COMPUNDING (ROLLING)

Rolling will Give you the Ability to Compound your Earnings by Increasing your Stake Percentage in the Pool, Meaning that you will Get a Larger Share of Incoming Rewards, and this will also Help the Platform to Prevent the Share Dilution Overtime. Depending on your Position Size, it is Recommended to Compound more or less Frequently.
